

AHCL 2018 State Cultural Arts Categories Dictionary

Painting

Painting - Watercolor - paintings made where all pigments are mixed with water rather than with oil and also to the paintings produced by this process. *May be applied to paper or other flat surface.*

Painting - Oils - painting where a type of paint is used that is made with natural oils such as linseed, walnut, or poppy, as the medium to bind the pigment. *May be applied to canvas, board or other flat surface*

Painting - Colored Pencil/Charcoal - Any painting or drawing made with colored pencils or charcoal. May be an original drawing or from a printed page. *May be applied to paper or other flat surface*

Painting - Acrylics - paintings made where the paint is fast-drying paint containing pigment suspended in an acrylic polymer emulsion. *May be applied to canvas, board, or other flat surface*

Painting – Decorative - Any painting technique or medium applied to a surface other than paper or canvas . Contemporary decorative painting includes tole painting, folk art, faux finishing, etc.

Photography

A photograph may be entered in only one category (for example: the same photo may not be entered in Landscape - color and Landscape - Black & White. Nor can a photo be entered in both action and animals).

Photography - Color -photography that uses all colors which can be produced. It does not include hand colored or Photo chrome photographs.

Photography - Black & White - Black-and-white photographs include black and white plus include varying shades of gray, and sometimes sepia, but no other colors.

Photography - Landscape - landscape photography is scenery, of any kind from wilderness vistas to urban cityscapes. The picture must contain some type of land or sea. The primary subject is the scenery although the picture may contain other, secondary, elements such as people, animals or objects that are not truly part of the scenery. Landscape photographers show little or no human activity in their photos.

Photography - Action Photos - photographs of some type of fast moving action.

Photography - Architecture - photography that will convey the experience of being in and around a built environment. Photos capture the exteriors and/or interiors of domestic, commercial, religious, institutional, engineering structures and anything that is man-made.

Photography - Animals - photographs of any of a kingdom of living things including many-celled organisms that typically differ from plants. Mammals, birds, reptiles and insects all fall into this category.

Photography - Human Subject - pictures that include all or part of the human being as the principal focus of the picture.

Photography – Botanical - photographs depict plants accurately.

**Photography - Special Theme – A silhouette is the image of a person, animal, object or scene represented as a solid shape of a single color, usually black. Color silhouette may have foreground or background with color.*
